

## **MFFC PRESENTS:**

### **A GARY BORGER FLY FISHING SCHOOL**

Learn from a master. This is an opportunity to learn more in one day than months or years plodding around on your own. Gary is a retired college professor and a terrific instructor. You will learn how to cast a fly rod, the basics of dry fly fishing, nymph fishing, reading the water, the best system in the world for rigging leaders to fly lines and much more. Gary is a legend in the fly fishing community and has fished and taught all over the world. He has a gift for making the complicated very simple. Take advantage of this opportunity as so many of our members have in the past.
